Do not hesitate to contact us , just by passion...

Maxime Vilmot, 29.

Rally co-driver since 2006 at the side of, amongst others, Serge Cazaux, Alain Deveza, Eric Camilli, Max Vatanen, ... Maxime is endowed with a strong experience through the world, with numerous entries in WRC and ERC, but also a large involvement in the rally world, just by passion !

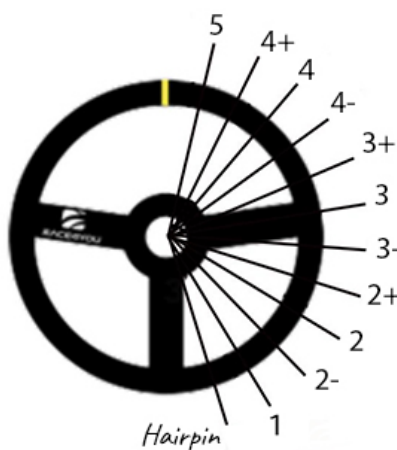

<< I wish to put my experience to good use regarding pacenote edition as it fascinates me. During my whole career, which counts more than 50 different collaborations, I have seen many interesting things that I am trying to put in use while driving or else when I prepare notes. During a rally, pacenote precision is primordial in order to carry out good performances without increasing risk taking. Along with my team, we spend approximately two weeks to list everything down to the last detail. Competing teams are there to take as much pleasure as possible in all security before anything else >>

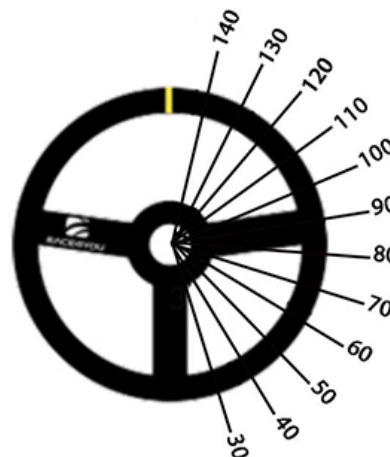

### 3 PACENOTE SYSTEMS AT YOUR DISPOSAL

RACE4YOU proposes three different pacenote systems, all of them used by some of the most famous pilots, and that many will enjoy for their precision and the fluidity of trajectories. You may then settle for doing a one and only reconnaissance passage in order to perfect your notes at your convenience or just spare yourself the effort.

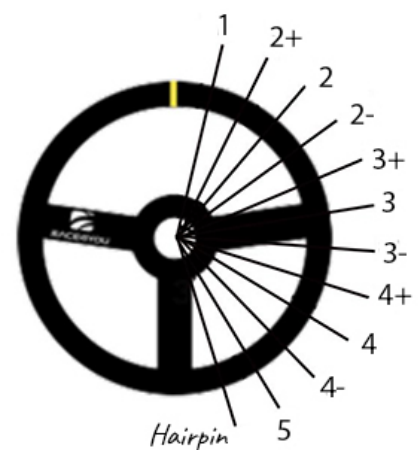

You will immediately feel in confidence after a couple kilometres of practice. A lexicon is also at your disposal in order to get used to the chosen pacenote system. We remain at your entire disposal to organise a coaching day on pacenote edition and the different pacenote systems that are available.

"5 &gt; 1" Pacenote system

"Wheel angle" Pacenote system

"1 &gt; 5" Pacenote system

We can also create a personalised and calibrated system based on your own notes, like a road description (Easy, Medium...)

Regarding turns length, fluidity, cut, visual landmarks... We use the most well-known and commonly used terms. A lexicon will be at your disposal to assimilate at best all subtleties of your racebook.

## COMPOSITION OF YOUR RACEBOOK

The RACEBOOK is a book especially conceived for rally co-pilots. It is fitted with a spiral allowing for the book to be disassembled and reassembled. It is made of 90gr mat paper and possess a solid cover. Sheets are also available at the end of the book to facilitate your assistance organisation.

We also offer the possibility to edit a personalised design to fit your colours !
